Listing of Claims:

Claims 1-2 (withdrawn).

Claim 3 (currently amended): A fastener tool comprising:

a housing;

a magazine connected to the housing for storing a fastener;

a driving mechanism disposed within the housing for driving the fastener into a workpiece;

a contact trip assembly slidably mounted to the housing and movable when a user pushes the housing towards the workpiece;

a trigger assembly pivotally attached to the housing for activating the driving mechanism,
said trigger assembly being rotatable relative to the housing about a first axis, said trigger assembly comprising a main trigger pivotally attached to the housing, and a supplemental trigger pivotally attached to the main trigger, said supplemental trigger being movable by the contact trip assembly, said driving mechanism being activated only when the user rotates the main trigger and the contact trip assembly moves the supplemental trigger; and

a trigger lock disposed between the housing and the trigger assembly, the trigger lock being movable rotatable about a second axis substantially perpendicular to the first axis between a first position limiting the pivoting range of the trigger assembly relative to the housing for preventing
